# Why Are We Here?

- APICS SCC Board of Directors and Research Committee approved the creation of a Special Focus Forum (SFF): “Strengthening Global Health & Humanitarian Supply Chains”
- Share with the HHSC community the SFF project charter
- Listen, discuss and gather feedback from HHSC community

# About the APICS and the APICS Supply Chain Council

# Leading the Industry

APICS is globally the leading association advancing supply chain and operations management. Our research, education and certification programs elevate individual and corporate supply chain performance, innovation and resilience.

## **APICS Products and Services**

- Professional Membership
- Research and Publications
- Education
- Certification
- Events
- Networking through local APICS affiliated organizations

# APICS Develops People

- Over 102,000 Certified in Production and Inventory Management
- Over 17,000 Certified Supply Chain Professionals
- In over 100 countries
- Supported by 295+ partner organizations
- And over 2,000 volunteer subject matter experts

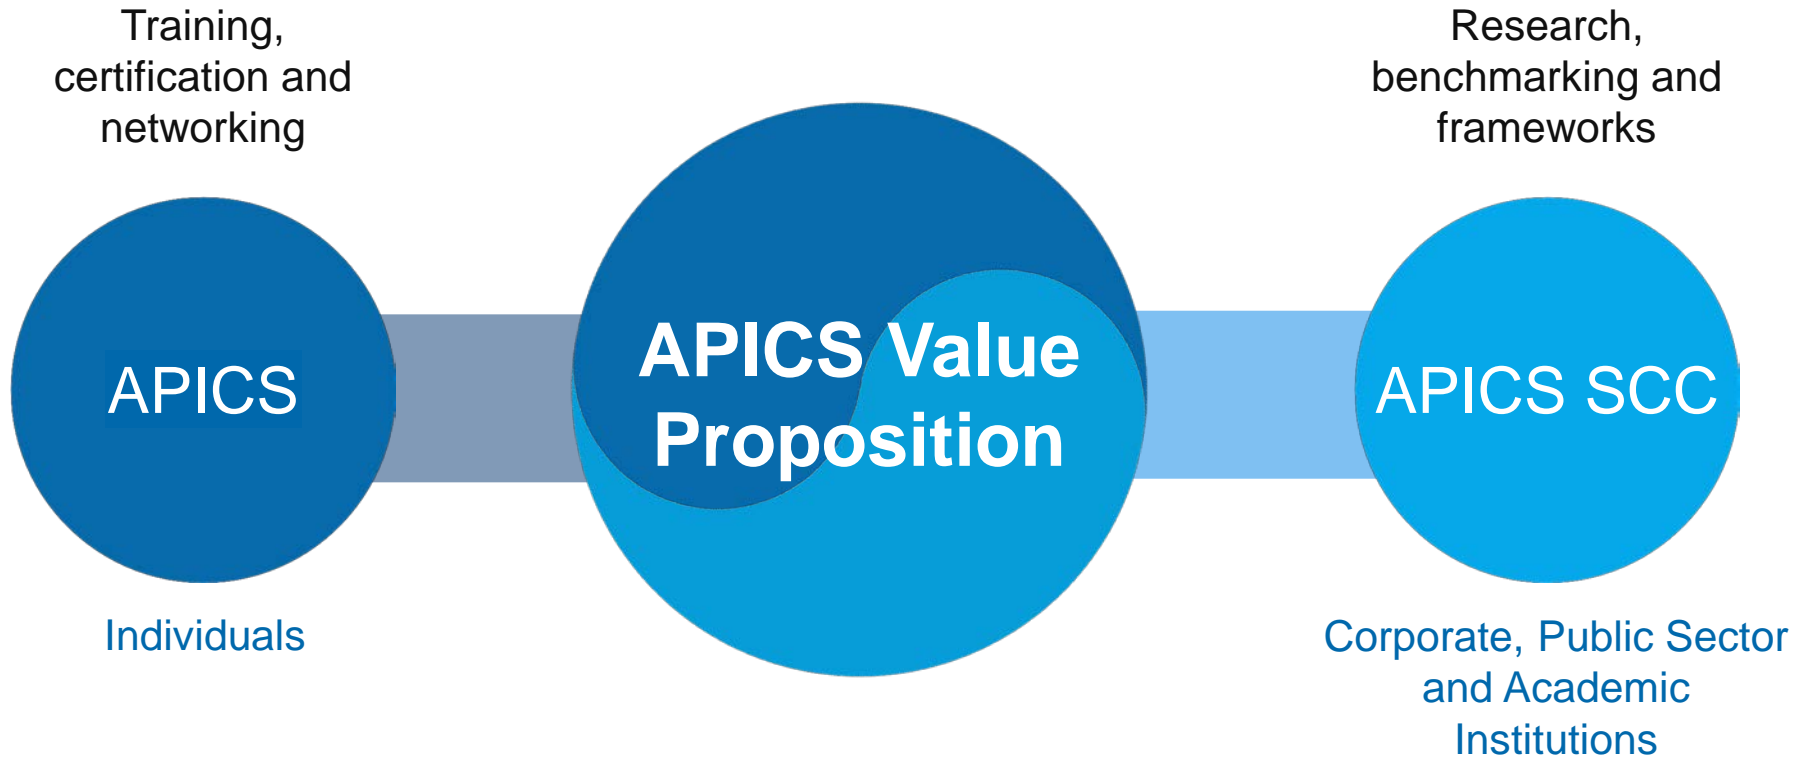

# APICS Supply Chain Council

The legacy SCC integrated with the former APICS Foundation to form the new APICS SCC. The new organization continues the tradition of funding scholarships and student programs; still operates as a global, non-profit entity; and actively manages the Supply Chain Operations Reference (SCOR) model and other related frameworks.

## Programs and Services

- Dissertation, Scholars Program, Student Case Competition
- Research Projects, Corporate Advisory Board, Executive Summit
- SCORmark™ Benchmark
- Publications, Resource Library, and Case Studies
- Other Value Chain Frameworks including M4SC, DCOR®, CCOR®, and PLCOR®

# APICS Value Proposition

**APICS delivers a total individual and corporate value proposition.**

We help individuals achieve career development goals.  
We help corporations achieve strategic supply chain goals.

# About the SFF

# Mission Statement

Engage commercial companies, government agencies, international organizations, NGOs, and academia to identify solutions, ***based on leading practice from across sectors***, to some of the most pervasive challenges facing health and humanitarian supply chains in low and middle income countries

# SFF Objectives

Define GHHSC challenges and provide solutions via multiple delivery methods, based on leading practice

Identify success factors, evaluate feasibility/applicability of solutions; Discuss approaches for ensuring sustainability

Contribute to a body of knowledge on strategies to improve supply chain performance in LMI countries

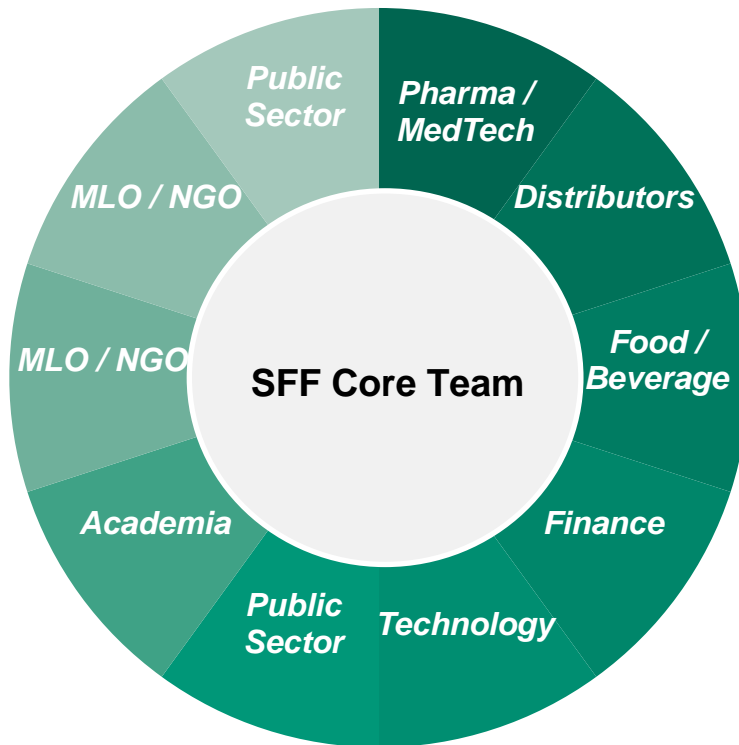

Provide means to openly share high level findings with and obtain feedback from anyone interested in this effort

**Near-Term Milestone: In Year 1, initiate 2 projects and demonstrate progress by APICS2016 Annual Conference in October 2016**
